# Kutjevo Chardonnay

## Kutjevo Chardonnay

Croatia

Like all the Pinots, Chardonnay also originates from France. The Chardonnay is a high-quality sort, which gives one of the best and most appreciated white wines in the world.

The distinctive features are deep yellow-green color, and a well proportioned relation between alcohol and acid, a beautiful and tender aroma, then fullness.

It should be served cooled to 8-10 C along with fine hor'derves, soups and dishes of white meat, especially the spicy ones, and also with delicious cheese and desserts.

Available in cases of 12/750 ml bottles.  
ABV=12%
