Mileniul III Sparkling Wine

Mileniul III Sparkling Wine

Romania

Mileniul III is a traditional, full-flavored sparkling wine vinted in the traditional method of fine champagnes. This smooth and soft sparkling wine is delightfully fresh and delicate with a charming touch of fruitiness.

Mileniul III is elegantly delicate and balanced with a crisp character. Although ideally lean and sophisticated, there is plenty of structure for a satisfying mouthfeel.

Mileniul III is particularly well suited to accompany desserts or fruit at the end of a meal. Thanks to its moderate alcohol content it can be enjoyed at any time of the day. In our offer are two kinds of Mileniul III Sparkling Wine: demisec and dry.

Mileniul III Demisec is not too dry and not too sweet with an exceptional, fresh, fruity style and a lingering aroma. It is the perfect partner for the finest food and excellent at any time.

Mileniul III Dry is very refreshing and clean sparkling wine. It is almost impossible to believe this low-priced wine is so good.

Mileniul III Demisec, and Mileniul III Dry are available in cases of 12 x 750 ml bottles.

ABV: 11.5%
